**A. Genesis :**

In order to address the paucity in development of Electronics Manufacturing Industry, Government of India has formulated National Electronic Policy 2012. This Policy covers a wide set of schemes for the promotion of domestic Electronic industry which includes setting up of Electronic Manufacturing Clusters (EMC), Introduction of a Modified Special Incentive Package Scheme (M-Sips) etc. The National Electronic Policy 2012 targets to create gainful employment opportunities for a large section of population with varying degree of skills and qualifications.

Government of Kerala has taken various steps to boost manufacturing sector in the State by developing a practical model of Industrial Infrastructure Development. The vision of Government of Kerala is to make the State an investment friendly destination and also to create employment opportunities for the people in Kerala. The establishment of Kerala Industrial Infrastructure Development Corporation (KINFRA) in the year 1993 was one of the most effective steps taken by Government of Kerala in this regard.

## **B. About KINFRA:**

Kerala Industrial Infrastructure Development Corporation (KINFRA) is a statutory body of Government of Kerala aiming at bringing together all the suitable resources available in the State and developing infrastructure to support the industrial growth of the State. KINFRA has identified about 20 core competency areas and has 22 well-defined industrial parks of which many are functional and some are in the launching phase. Each of these Parks offers comprehensive infrastructure and support services to the clients. The most important feature of KINFRA is that it offers single window clearance facilities. The Head Office of KINFRA is located in Trivandrum - the capital city of the State of Kerala.

## **C. About the Project EMC:**

KINFRA intends to develop an Electronic Manufacturing Cluster of International Standards at Kakkanad in the Ernakulam District of Kerala. The Project is intended to create an Electronic Cluster with all modern facilities exclusive for the Electronic System Design and/or Manufacturing Industry with the assistance of the Ministry of Communication and Information Technology, Government of India (MeiTY). Vide letter No. 36(23)/2014 – IPHW (Vol III) dated 24<sup>th</sup> August 2016, MeiTY has already accorded Final Approval for setting up of the proposed Electronic Manufacturing Cluster (EMC).

KINFRA is in possession of 66.87 Acres of land at Kakkanad in Ernakulam District and it is proposed to set up the Electronic Manufacturing Cluster (EMC) at this location. The proposed Cluster is located adjacent to Kinfra Export Promotion Industrial Park (KEPIP), Info Park and Smart City and is accessible by Road to Airport as well as Seaport.

**Modified Special Incentive Package (M-SIPs):** This Project is envisaged under the Modified Special Incentive Package (M-SIPs) Scheme of Government of India. This scheme was originally envisaged for a period of three years starting from 27 July 2012. Now Government of India has

extended the scheme for a period of five more years. Various Incentives are available under this scheme (<http://meity.gov.in/esdm/incentive-schemes>).

**Special Purpose Vehicle (SPV) & Its Role:** As per the EMC Scheme, the project is to be implemented and managed by a SPV. At least 7 of the EMC units should be on the Board of Directors of the SPV. The EMC units must hold 51% of the share capital of the SPV with no single unit owning more than 25% of the share capital.
