INVITATION FOR BIDDING

INTRODUCTION

- 1.1. Kerala Industrial Infrastructure Development Corporation (KINFRA), a Statutory Body established by Govt. of Kerala has been the leader in providing industrial infrastructure for the State of Kerala. It has established a chain of Industrial Parks across the length and breadth of the State which include industry specific theme-based parks/special economic zones. For the Food Processing Industry, six Food Parks namely, KINFRA Food Processing Park (KIFPRO) at Kakkancherry, Special Economic Zone (Agro Food Processing) at Kakkancherry, Food Zone at KINFRA Small Industries Park (KSIP) at Mazhuvanoor, KINFRA Food Park at Adoor, Seafood Park at Aroor and KINFRA Spices Park at Thodupuzha have been established.
- 1.2. KINFRA has also set up a Mega Food Park under the Mega Food Park Scheme (MFPS) of Ministry of Food Processing Industry (MoFPI), Government of India. The main objective of the scheme is to provide modern infrastructure facilities along the value chain from the farm to the market. The main facility called the 'Centralized Processing Center (CPC)' consisting of developed land for food processing units is located in an area of about 79.42 acres at Elapully and Pudussery villages near Walayar in Palakkad. The CPC is further supported by four Primary Processing Centers at Mazhavanoor (Ernakulam District), Koratty (Thrissur District), Kakkancherry (Malappuram District) and Kalpetta (Wayanad District) for undertaking pre-processing or primary processing activities of agro produces to facilitate the linkage of agricultural production in the region with food processing activities.
- 1.3 KINFRA Mega Food Park has excellent connectivity being located in the industrial belt of Palakkad region (*road connectivity with national highway NH 544 @ 5.5 kms, and with state highway SH 52 @ 9 kms; railway connectivity with Palakkad Junction railway station @ 20 kms; seaport connectivity with Kochi seaport @ 162 kms; airport connectivity with Coimbatore airport @ 40 kms*). Similarly, the Primary Processing Centres (PPC) too are situated in locations having good road connectivity - (PPC at KINFRA Small Industries Park, Mazhavanoor at 8 kms from Muvattupuzha Town; PPC at KINFRA Small Industries Park, Koratty at about 1 km from the National Highway; PPC at KINFRA Food Processing Park at Kakkancherry is on the highway; PPC at KINFRA Small Industries Park, Kalpetta at is also on the highway).
- 1.4 The Park provides basic enabling infrastructure like road network, sewerage system, power supply, water distribution system, as well as common processing facilities etc. The developed land is allotted to food processing units on long term lease basis.
- 1.5 An important objective of Mega Food Park is to facilitate higher value addition of the

agriculture produce. In order to bring about this, **Primary Processing Centres (PPCs)** have been set up at various locations in the region around the Mega Food Park. The Primary Processing Centres (PPCs) are facilities for undertaking primary-processing or pre-processing of agricultural produce. Primary processing such as cleaning and grading etc helps in adding value to the agricultural produce through appropriate segregation as well as preliminary processing for complying with the needs or requirements (specifications) of potential users or customers. The potential users/customers of pre-processed agricultural produce may include food processing companies requiring raw material for higher/further value addition OR exporters of fresh agro-produces OR supply chain for institutional buyers/retail chains etc.

The Districts of Wayanad, Kozhikode, Malappuram, Palakkad, Thrissur and Ernakulam constitute the 'Project Implementation Zone' for the Mega Food Park for focus on value addition activity through pre-processing or primary processing of agricultural produce. Under KINFRA Mega Food Park, there are four Primary Processing Centres located at Mazhavanoor (Ernakulam District), Koratty (Thrissur District), Kakkancherry (Malappuram District) and Kalpetta (Wayanad District).

The spread of primary processing facilities across the Project Implementation Zone at multiple locations bring these facilities nearer to farms, resulting in less transportation distance for the produce, less time taken, better preservation of natural quality of perishables etc, in addition to the advantage of better prices for farmers. On the other hand, aggregation of produce at PPCs facilitates primary value addition on a viable basis, enabling the various stakeholders such as food processing sector/exporters/institutional buyers/retail chains/other stakeholders to procure their requirements according to their specific needs.

The unique feature of Mega Food Park concept is that facilities are not restricted to a single location i.e. in the Centralized Processing Centre (CPC) (*at Palakkad as in KINFRA Mega Food Park*), as is the case in conventional Food Parks.

BIDDING

- 2.1 KINFRA wishes to select Operating Agency for operation, maintenance and management of Primary Processing Centre at KINFRA Small Industries Park in Kalpetta through a transparent, competitive two-bid process and invites Technical Bids including business development plans & Price Bids from interested parties in accordance with this "Request For Proposal (RFP)". - 5.2 The Operating Agency shall maintain the Primary Processing Centres, and supporting equipment, electrical installations etc handed over by KINFRA in good tenable condition and shall compensate KINFRA for any damages to such properties with its replacement value. The Operating Agency ensure the adoption of standard operation and maintenance practices of all equipment to ensure that equipments are not deteriorated beyond regular wear and tear.
- 5.3 The Operating Agency shall undertake preliminary value addition activities. The Operating Agency shall offer Primary Processing services, which includes Packhouse facility, involving activities such as collection of raw materials from producers, its cleaning, sorting and grading etc based on

requirement of processors, exporters, retail/super markets etc. The scope of the activities may also include transportation of the produce. Agricultural produces being seasonal in nature, the Operating Agency shall operate, maintain and manage the Primary Processing Centres as per the demand for its services, if required, on round the clock and all seven days of the week.

- 5.4 The Operating Agency shall include a backward linkage component for procurement of raw materials. The backward linkage shall be with producers and if required the Operating Agency may set up a network of Collection Centres (to be identified and managed by the Operating Agency). The Collection Centres may be facilities meant for collection and aggregation of agri-produce from farmers of the locality and temporary storage till the materials are transported to the Primary Processing Centres. These Collection Centres may be facilities that are either own or leased or tied up with stakeholders associated with Operating Agency based on mutually agreed terms.
- 5.5 The Operating Agency shall follow Good Post-Harvest Practices and Good Manufacturing Practices and Good Warehousing Practices while offering service to its clients.
- 5.6 The Operating Agency shall undertake all necessary documentation associated with taking delivery, handling, pre-processing, storage, delivery of primary processed stock, including inventory and material balance documentation.
- 5.7 The Primary Processing activities shall be undertaken in line with all statutory requirements and regulations in force. The Operating Agency shall also arrange to secure mandatory registrations and licences that are required for operation of Primary Processing Centres. The Operating Agency shall indemnify KINFRA for all claim for damages or any action taken by any persons against KINFRA for any injury or losses caused or suffered by any person due to any act or omission on the part of the Operating Agency in providing services at the Primary Processing Centres and for any claim for damages arising out of such action of the Operating Agency and / or his employees. The Operating Agency would be responsible for the payments arising out of any Third Party claims.
- 5.8 The Operating Agency shall not move out or transport material handling items such as “pallets” out of the Primary Processing Centre building. However, material handling items such as “crates” may be used by Operating Agency to transport products only in vehicles directly operated by the Operating Agency itself.

Such crates can be used only for transportation and should be returned back to the Primary Processing Centre; such crates shall not be put to use at any outside/third party facilities. However, the use of crates owned by KINFRA is not permitted for use in outside vehicles, not under the direct control of Operating Agency.

5.9 The Operating Agency shall market their services and collect payments for the primary processing services rendered by it as per rates fixed by it. The rates shall be fixed by the Operating Agency in consultation with KINFRA.

5.10 The Operating Agency shall not sublet, under let, lease, assign or transfer the operation of the Primary Processing Centre to any other agency and shall not encumber the properties by way of pledge, hypothecation, mortgage, charge, lien, lease, leave and license or in any other manner without authorization from KINFRA. The Operating Agency shall not sell, mortgage, hypothecate or otherwise deal in, create security interest over or use in any way the stocks under its custody.
